

## Library / Recreation / Senior Center Complex, Arbutus, MD

The 42,000 sq.ft. complex consists of two buildings - one housing the 20th Baltimore County senior center and the expanded Arbutus branch of the Baltimore County Public Library, and the other providing space for a Recreation and Parks gymnasium and activity area. A main reason for the new complex was to bring everyone from Arbutus together in a single place. This location

RJC Designs provided A/V technology designs, voice and data development, electronic signage and security designs for this new complex.
