

Ramsay Basketball Center, Saint Joseph's University

RJC Designs is the technology consultant for both Saint Joseph's new Fieldhouse as well as the new adjacent basketball practice center. The center is the new home of both the men's and women's basketball programs, as well as the athletic department's communications office. Everything the men's team has on one side of the facility the women's team has on the other.

The 20,000 square foot new state-of-the-art Center adds expanded coaches' offices, conference rooms, academic space, the Wynne Hall of Fame Room, the Delonte West Players' Lounge, and the Jameer Nelson Locker Room. Down the hall from the players lounge and locker room is a theater where players will watch film with coaches. It will also double as an interview room after games.
